
Shree Amarpur Om Prasad Gautam Higher Secondary School in Gulmi – Thanks

to the support of our Earthquake Fund and with a special thanks to the Rotary Club of Salt Lake City, the Amarpur High School now has two additional child-friendly and safe classrooms and a multipurpose covered hall and terrace for student activities and teachers' use.

It is to be noted that the first two floors of the new school were built with support from the Gulmi District Education Office and the local community following the 2015 earthquake that had damaged an adjacent two floor school block, which has now been

safely demolished. The new building was designed and built in a robust earthquake resistant manner with strong foundations.

One of the classrooms in the newly built school, now serves as e-library as part of an earlier project supported by RC Kathmandu Mid-Town in partnership with OLE Nepal. In 2016-17 a small but safe and hygienic toilet block was also constructed in the school premises with earlier support from RC Kathmandu Mid-Town.

As a result of all this, nearly 450 students (250 girls and 200 boys) and about 20 teachers and staff are now able to use the reconstructed premises to ensure basic education in this remote, needy community.
